Diameter	7-1/4"	Kerf (Thickness)	.067" (1.7mm)
Bore	20mm	Number of Teeth	16

The FURY will easily cut Steel, Aluminum and Wood (even wood with nails), using one single blade.

Providing an **economical performance**, even when faced with robust materials such as steel, typically a FURY blade can cut up to 33' of mild steel* before a replacement is required.

The saw and respective multipurpose blades offer considerable **value**, with the FURY blades being equivalent to the cost of normal good quality wood blades.

7-1/4" Blade capacity

Powerful 1050w hi-torque motor

2-1/4" Max cutting depth

Safety switch with overload protection

Auto debris collection system

FURY 7-1/4" BLADES AVAILABLE:
