TCT SAW BLADES

Powerful 2200W motor

Heavy duty, industrial rated

14" TCT blade capacity

High quality construction

Fast action swivel work clamp for cuts from 0-45°

Clamp provides strong support for work piece

Max box cutting capacity 4-3/4" x 4-3/4"

Weight 50lbs

STEEL SAW 2 ATTRIBUTES:

- Cuts through mild steel with ease, producing no burrs and virtually no sparks.
- Long blade life averages 1000 cuts of 2" x 2" in mild steel (1/8" wall thickness).
- Faster and cleaner cuts than an abrasive wheel.
- Work clamp provides strong support for work piece.
- Also cuts stainless steel, aluminum and wood with the correct specialty blade attached.
- Instantly workable finish.
- High quality construction.

EVOLUTION STEEL®
